

KREATYWNY ENERGY POLSKA

1MW Outdoor Energy Storage Unit in the Yangtze River Economic Belt

1MW Outdoor Energy Storage Unit in the Yangtze River Economic B

Evaluation of urban energy transition and identification of barrier

Through the integrated index model and barrier degree model, a quantitative analysis is conducted to explore the dynamics and potential mechanisms of energy transition in the Yangtze ...

Simulation of regional green development policies under the nexus of

To alleviate resource and ecological pressures, this study constructs a complex mega-system that focuses on water, energy, food, and ecology as well as economic, social, and ...

Low-carbon spatial differences of renewable energy technologies

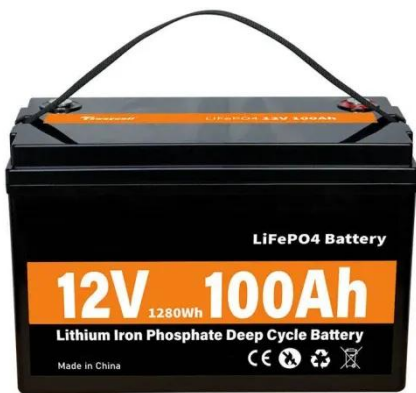

The results show that there is a significant positive correlation with the provincial carbon intensity in the Yangtze River Economic Belt, but this trend is weakening.

Evaluation of Energy Utilization

Efficiency in the Yangtze River

For this purpose, this paper uses the super-efficiency SBM model, ML index and Tobit model considering undesired output to explore the energy efficiency and the main factors affecting it of nine ...

Spatial mismatch and the attribution analysis of carbon storage ...

Therefore, based on the knowledge of ecosystem services, this study took the Yangtze River Economic Belt (YREB) as an example to systematically research the spatial distribution ...

Spatiotemporal evolution characteristics and influencing factors of

This paper uses the two-stage NDEA-SBM model to calculate the energy, ecology, and economic (3E) efficiency of the Yangtze River Economic Belt (YREB) and analyze the spatial ...

Sustainable development pathways for energies in Yangtze River ...

Here, we focused on the Yangtze River Delta (YRD) urban agglomeration in

China and proposed an optimization framework for energy, environment, and economy.

Yangtze river power energy storage water storage

A subsidiary of China National Offshore Oil Corporation (CNOOC) has completed the construction of China's largest LNG storage base, a move that aims to ensure energy security and support green ...

Pathway of Green Development of Yangtze River Economics Belt ...

Is there heterogeneity of the moderating effect in the upper, middle and lower reaches of the Yangtze River Economic Belt? The contributions of this paper are mainly shown in the following ...
