3dd12 production inverter

3dd12 production inverter

The 3DD12 is a bipolar junction transistor (BJT) with an NPN-type configuration. That means the 3DD12 transistor has a positively charged layer between two negatively charged layers.

Next Generation Traction Inverter

The next generation inverter can now be built in fewer stages; the bulk capacitor, HVAC bus bars, HVDC unit, power module and main circuit board are assembled within the main housing, then the cover is ...
