OUTDOOR ENERGY STORAGE CABINET

OUTDOOR BATTERY CABINET

Overview

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and fully control the system status. Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids. Built for outdoor use and designed to handle harsh environments, it's the ultimate plug-and-play solution for decentralized power systems in homes, businesses, and remote. One cabinet per site is sufficient thanks to ultra-high energy density and efficiency. The eMIMO architecture supports multiple input (grid, PV, genset) and output (12/24/48/57 V DC, 24/36/220 V AC) modes, integrating multiple energy sources into one. It is built specifically for outdoor installation and integrates advanced LiFePO₄ battery.
