

# Instructions for use of 42U lead-acid lithium battery energy storage cabinet

## Overview

---

Learn how to install and link the Dettaglio 42U-100Ah-12V Battery Cabinet with your UPS system. Follow step-by-step instructions and mechanical data on this user manual page. Choose the right battery requirement among 12V 100Ah x 32/36/40 Batteries. The cabinet include 6 layers totally of battery trays from L1 (bottom) to L6 (up). Pull out the latch from door hinge then remove the front door. Unscrew the M4 screws (12). The documentation available online is generally the latest version. Protect your facility and your team with Securall's purpose-built Battery Charging Cabinets—engineered for the safe storage and charging of lithium-ion, lead-acid, and other rechargeable batteries. If the temperature measurement in a battery cabinet indicates that thermal runaway is. Simplex rechargeable sealed-lead acid batteries provide reliable and repeatable discharge and recharge characteristics for use in fire alarm and other systems applications. They are designed with immobilized electrolyte in an absorbent separator, allowing them to provide rated capacity on the first. The hazards and controls described below are important in facilities that manufacture lithium-ion batteries, items that include installation of lithium-ion batteries, energy storage facilities, and facilities that recycle lithium-ion batteries.
