KREATYWNY ENERGY POLSKA

Kyndryl principles

Overview

The guiding principles for Kyndryl as an organisation are flatter, faster and focused — flatter in terms of Kyndryl's new operating model; faster related to speed in delivery through simplification; and focused on providing innovation and value through agility. Working together to build a culture of responsibility and excellence At Kyndryl, our cultural journey began with building brand values that truly encompass a shared and lived experience. The origin of The Kyndryl Way was our desire to offer customers, investors, partners and employees an experience. Possibly the world's largest start-up following its spin-off from IBM in November 2021, Kyndryl (NYSE: KD), is a $19 billion independent IT infrastructure services firm with operations in more than 60 countries. Kyndryl has existing infrastructure services strengths that were built. Kinship @ Kyndryl works to strengthen these bonds, focused on: ensuring all Kyndryls feel included, supporting Kyndryls to be well, helping Kyndryls be ready for their next career opportunities and fostering our bonds with our customers and the communities where we work and live. Kyndryl Inclusion. New growth and connections between people are two of the core principles that make up our identity at Kyndryl. The work we do at Kyndryl.
