Muscat New Energy solar Site Distribution

Overview

Muscat - Oman has signed a multi-million dollar agreement with China's JA Solar to establish a large-scale solar cell and panel manufacturing facility in the second phase of Sohar Freezone as part of efforts to boost renewable energy and diversify the economy. MUSCAT: The 4th Oman Electricity and Energy Conference 2025 witnessed the active participation of Nama Electricity Distribution, which highlighted its strategic initiatives in the renewable energy. Siraj Solar Ventures International is a renewable energy startup dedicated to driving Oman's transition to sustainable power. Our operations over the years have established us as reliable service providers for the needs of the Omani local market. The existing power infrastructure, while generally stable, faces challenges in meeting these evolving needs. Currently, over 90% of Oman's power generation relies on gas turbines and fossil.
