National standards for the warranty period of photovoltaic panels

Overview

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for. The standards for solar panel warranties are integral to the evolving landscape of solar energy regulation and consumer protection. While many home appliances typically come with a basic warranty offering free replacements within a specified period, solar panels are protected by various types of warranties that cover a range of potential issues.
