

KREATYWNY ENERGY POLSKA

New energy storage manufacturer on israeli streets

Overview

HiTHIUM, a leading global provider of long-duration energy storage technology, announced a strategic cooperation agreement with EL-Mor Renewable Energy on November 6th, 2025, in Tzur Yigal, Israel. On Janu, GSL Energy completed the deployment of a 50kWh high voltage energy storage system with Deye three-phase inverters at a business park in Israel. These locations belong to the retail chain Machsanei HaShuk. More than 350 active startups are now developing solutions across energy generation, storage, infrastructure, and decarbonization. These companies raised over \$400 million in private capital in the past year, reflecting strong investor interest even. Israeli companies are stepping up to this challenge, leveraging the country's strengths in materials science, electrochemistry, and software engineering to create next-generation storage technologies.
