## Overview

---

The project is a collaboration between EPC Solarigo and PVO International, which supplied the solar panels and Sungrow's inverters. Solarigo, Finland's largest developer and operator of utility-scale solar PV parks, brings extensive experience in building PV infrastructure. Simo, Finland, June 18th, 2025 – Sungrow, the global leading PV inverter and energy storage system provider, has supplied 180 units of their SG350HX string inverters to a 70 MWp solar power plant in Simo, Lapland. The park will be one of the largest in Finland —marking it also one of the world's. Niam and Evecon will deploy 84MW of solar power and 26MW of energy storage across 11 project sites in Latvia. Summary: The Nordic Gravity Energy Storage Power Station Project represents a cutting-edge approach to storing renewable energy. – Kvosted combines utility-scale solar generation with a 200 MWh battery system, creating Northern Europe's largest.
