# **Payment Method for a 350kW Solar Container Solar Unit in Belarus**

## Overview

---

This typically involves registering a Limited Liability Company (OOO) or a Joint Stock Company (OAO/ZAO). The process, handled by regional executive committees, is generally straightforward and takes only a few business days with the correct documentation.

**Importing:** Materials brought into Belarus from outside the EAEU, such as solar cells from Asia or specialized glass from Europe, are subject to the EAEU's Common Customs Tariff.

**Exporting:** Finished modules produced in Belarus can be sold across the entire EAEU market without incurring further. The BoxPower SolarContainer is a pre-wired microgrid solution with integrated solar array, battery storage, intelligent inverters, and an optional backup generator. Microgrid system sizes range from 4 kW to 60 kW of PV per 20-foot shipping container, with the flexibility to link multiple SolarContainers. Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading from a remaining container structure.

1 August 2025 - Tczew, Poland -- Solis has completed its first 350kW Solar inverter PV project in Europe, supplying power to a newly operational 2. Local sourcing offers several key advantages: Reduced Logistics Costs and Lead Times: Sourcing bulky or fragile materials like glass and aluminum frames from within the country or region. Residency in a Free Economic Zone (FEZ): Belarus has six Free Economic Zones (e. Registering as a resident of an FEZ simplifies many procedures and provides a preferential tax regime, including.
