# **Photovoltaic panel loan contract**

## Overview

---

A solar loan is a financing product specifically designed to help homeowners purchase and install solar panel systems. A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar services provider. While going solar carries the reputation of having a high upfront cost, more than half of solar owners choose to finance with solar loans. And many of those solar loans come with zero down payment. r house and you sign a contract to use the system. Contracts often las 20 years or more. You don't buy the system or own anything installed on your property ing the term of the contract, you're entitled to use all the ower the system produces. Hidden Cost Alert: The CFPB has. Taking out a solar loan is one of the most common ways to finance a solar energy system, but you can also finance your solar energy system with other types of loans, such as a home equity loan or HELOC.
