Qatar Communications PDT Digital Cluster Base Station

Overview

In 1977, Qatar commissioned its first satellite, located about 35 kilometres (22 mi) west of, at a cost of approximately QR 20 million. The facility featured a 270-ton antenna linked to the Indian Ocean satellite, enabling global communication. This provided capacity for 30 international telephone circuits, supported 5,000 simultaneous calls, and transmitted two color television channels.
