Solar generator supports refrigerator

LFP 12V100

Overview

A solar generator with at least a 2,000Wh (2 kWh) battery will run a full-size refrigerator for one day. Here's what you'll learn: How to size up. Most modern portable power stations can easily keep your fridge running. However, the real question is for how long?

And which size do you actually need?

In this guide, we will explain how to make a solar generator run a refrigerator effectively, break down the math, and help you pick the right. If you're looking for the best solar generators for refrigerators in 2026, you likely want something reliable, quiet, and strong enough to keep your food safe during outages, RV trips, or off-grid living.
