

KREATYWNY ENERGY POLSKA

Solar power station at Tsinghua University

Solar power station at Tsinghua University

FOUR RESEARCH TEAMS POWERING CHINA'S NET-ZERO ...

In October 2021, Xiangyuan Zheng, an ocean-engineering researcher at Tsinghua University, won a patent for a fish-farming cage that is powered entirely by wind and solar sources.

Research Teams Led by Zhang Qiang and Tong Dan at Tsinghua ...

Building a new power system dominated by renewable energy such as wind and solar power is a core technical pathway for promoting global clean energy transition and achieving the climate goals

DESS held the unveiling ceremony of the large

On August 10th, Tsinghua University held the unveiling ceremony of the large-scale photovoltaic power station climatic-environmental- ecological effect research observation field and the

How a young researcher is changing

the conversation about climate

She creates computational and statistical models to optimize global solar power strategy using big data -- a method she deployed during her graduate days studying for a doctorate at Tsinghua

Professor Luo Yong's research group "Large Photovoltaic Power Station"

The construction of this observatory can not only be used for the study of ecological effects of climatic environment of large-scale photovoltaic power plants, but also be shared with the

Research Feature-Tsinghua University

Shi Chen's solar power modelling has earned international accolades. The postdoctoral researcher says that deploying solar in Asia and the Middle East first could speed up decarbonization.

Tsinghua SPPM Teachers and Students Conducted Practical ...

In the afternoon, teachers and students

first visited JA Solar's Ningjin base showroom and PV cell 5G intelligent production workshop. Afterwards, teachers and students went to the ...

Tsinghua University (EEA) Large-Scale Advanced Power Storage Key

The construction and grid-connected joint commissioning of the 50MW/100MWh digital energy storage station have been completed, and the equipment functions and performance ...

Yang Kun's Research Group of DESS, Tsinghua

Based on this dataset, this study used the LightGBM model to develop an estimation model of radiation components, which was independently verified in Chinese and global stations, and then the
