

KREATYWNY ENERGY POLSKA

Solar power with grid backup in Botswana

Overview

It is the first utility scale grid-connected solar project in the country and is being developed by Scatec Solar ASA, a Norwegian independent power producer. The project is one of the key renewable energy projects in the country's integrated resource plan and will be constructed. Botswana leading and professional backup and full independence solar solutions. As a proudly citizen-owned company, Solarpro Energy delivers solar solutions built for our local conditions. With deep understanding of Botswana's energy needs, we provide reliable, efficient, and sustainable systems. Over 35 Years Combined Experience SolarBW has over 35 years' of combined experience designing and installing large scale commercial and residential Solar PV systems in South Africa, Botswana, the Indian Ocean Islands and Zambia. The energy generated from the power plant shall be sold through the competitive markets of the South Africa Power Pool (SAPP) and via bilateral agreements with other off-takers. A home backup system consists of a battery that stores electricity to power your home during outages.
