

KREATYWNY ENERGY POLSKA

Specialized for solar solar container power supply system

Overview

Instead of employing noisy diesel generators or exposed power lines, these plug-and-play systems include solar panels, inverters, batteries, and all else in a shipping container—ready to deploy, ship, go, and turn on. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power. A solar-powered container can run lighting, sound systems, medical equipment or communications gear without waiting for grid hookups. Off-grid living and clinics: Even homes and clinics have been built from shipping containers. Whether you're managing a construction site, a mining operation, or an emergency. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design.

Specialized for solar solar container power supply system

Instant Off-Grid(TM) Shipping Containers with Solar and ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Renewable Solar Container Generators

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.
