# TkUninterruptible Power Supply

## Overview

---

Line-interactive UPSs with rechargeable batteries that maintain uninterrupted power to critical loads via multiple output sockets during mains failures; they also protect from mains undervoltage and overvoltage. Local displays and PC-based monitoring software provided. Rack-mounting. ENERGY STAR certifies electronics and appliances based on energy efficiency specifications set by the US EPA. Environmental Protection Agency (EPA). EPA sets energy efficiency specifications for manufactures to earn the ENERGY STAR label for. The CyberPower LE1000DG is the best UPS for people who want to back up a few small electronics — such as a modem, router, PC, external hard drive, or game server — during a blackout lasting up to three hours. For home users, a UPS can protect desktop PCs, gaming consoles, and smart home devices from unexpected power cuts. Unlike a backup generator, it does not need to power up in order to start generating. If you have important electronics that have to keep running when the power's out, you'll need an uninterruptible power supply (UPS). Many smart devices have built-in battery packs, with modern.
